The effects: cycore, fractal noise, particles, effects "systems" and others ...

Recording effects

### Building a 3D environment

The X, Y, Z axes

Dynamic cameras: camera animation

Lighting and effects

### expressions

The links between the properties of the various effects

Effects control over time

Loops and interdependencies

Layering grouping

## **Audio effects**

Sound effects

Wave and frequency

## **Advanced Audio Editing**

Adobe Audition and AE software

Markers

## **caches**

Luma and Alpha caches

Effects created through caches

## **Rendering and leaving**

Backup and export project

Customizing output functions

High quality rendering
